

## ESKER'S CLOUD-BASED DOCUMENT PROCESS AUTOMATION SOLUTIONS SHORTLISTED FOR 2018 SAAS AWARDS

**MIDDLETON, Wis. — August 8, 2018** — Esker, a worldwide leader in [document process automation solutions](#) and pioneer in [cloud computing](#), today announced it is a finalist in the 2018 [SaaS Awards](#) Program in the category Best SaaS Product for Business Accounting or Finance.

With awards for excellence and innovation in SaaS, the [Software as a Service \(SaaS\) Awards](#) program accepts entries worldwide, including the U.S., Canada, Australasia, U.K. and EMEA. The SaaS Awards program is now in its third year of recognizing and celebrating innovation in software.

“Our mission at Esker is to enable our customers to improve efficiencies, visibility and accuracy through streamlining their business operations while providing excellent service,” said Steve Smith, U.S. chief operating officer at Esker. “We are honored to be recognized for the third consecutive year as a top global SaaS provider.”

Esker's AI-driven document process automation solutions allow organizations to automate highly manual and low-value tasks in their order-to-cash (O2C) and purchase-to-pay (P2P) processes. Its solutions are designed to eliminate the need for paper and easily integrate with existing infrastructures. This frees businesses to focus on tasks that provide value to customers and optimize financial management.

“In our third year promoting SaaS exclusively alongside its sister awards program, the long-running Cloud Awards, we have seen a huge variety of submissions,” said SaaS Awards and Cloud Awards organizer Larry Johnson. “All entrants demonstrated considerable commitment to innovation in software solutions and to make the shortlist itself is a huge achievement.”

Final SaaS Awards winners will be announced on Tuesday, August 28, and the program will return in spring 2019. More than 300 organizations entered, with international entries coming from North America, Canada, Australia, U.K., Europe and the Middle East.
